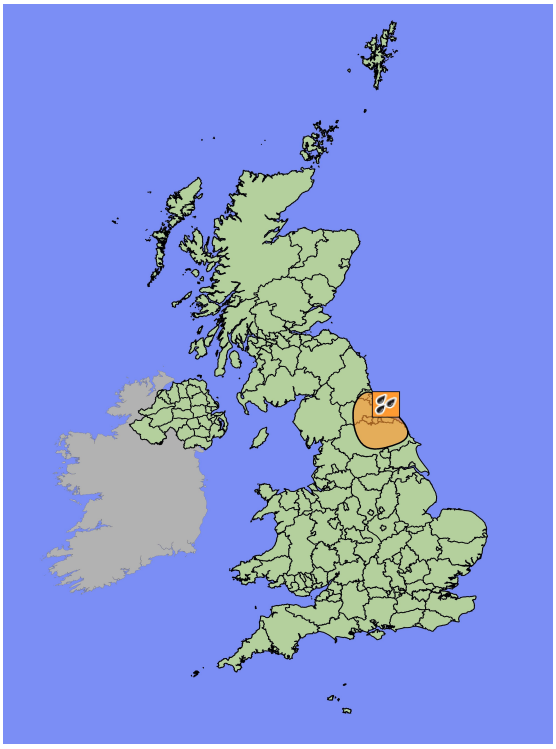
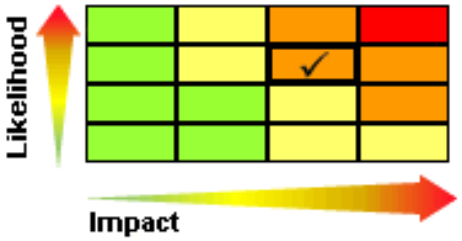
# National Severe Weather Warning Service





**Chief Forecasters Assessment**
A depression crossing southern parts will maintain a feed of moist air within a slow-moving frontal zone. Through the period 20-40 mm is expected to fall quite widely but with 50-70 mm possible, particularly for hills exposed to the northeast.

This warning is an update to the earlier issue, with the northern boundary pulled north and west across Durham and into the urban areas adjoining the Tyne.

The Met Office have issued an **Amber Warning** of **Rain**

Valid from **11:30 on Mon, 26th Nov 2012** until **23:59 on Mon, 26th Nov 2012**

Rain, heavy at times, will persist through the rest of Monday, allowing large totals to build up across the area.

The public should be prepared for the risk of flooding.
